Immediate Joiner - Holding Residence Permit

SUMMARY

Senior Data Analytics and Engineering Consultant with 9+ years of experience delivering scalable data platforms, marketing analytics systems, and executive dashboards. Strong expertise in SQL, dbt, analytics engineering, and Python, driving measurable impact across startups, e-commerce, fintech, mobility, and SaaS platforms & product domains.

EXPERIENCE

Luggage Forward Aug 2024 – Oct 2025
Analytics Engineering Consultant — Remote

- Data cleaning and data modelling with complex SQL queries across various DBs, managing ETL pipelines, DWH, DBT, etc.
- Built dbt data pipelines from scratch for shipping metrics for marketing, product, and revenue KPIs.
- Built Metabase dashboards for CXOs, delivering insights across growth, sales, and product teams.
- Helped product managers identify data gaps and fix them.

Boston Consulting Group (BCG) Jan 2023 – Jun 2024
Data Engineering Consultant — Germany, Europe

- Led end-to-end data engineering from ingestion to reporting via Snowflake and DBT data pipelines.
- Migrated Qlik Compose pipelines to dbt, saving $100K+ annually and moving tables and views from SQL Server to Snowflake for an unified single source of truth.
- Integrated and extracted Salesforce data using Python, enabling efficient data processing, transformation, and reporting for business insights in Tableau and Power BI.
- Led & mentored teams of 12+ engineers and interns across various data analytics, bi and engineering projects.

Clarifai - An AI Company Mar 2021 – Sept 2022
Data Visualization & Analytics Consultant — Estonia, Europe

- Built executive dashboards from scratch for marketing, product, growth, and revenue KPIs for AI models.
- Migrated single-handedly dashboards from existing Periscope to Tableau for 100+ dashboards, providing stakeholders with actionable insights and integrating data from multiple sources into a unified platform for analysis, self-serve reporting, and visualization.
- Designed and maintained Redshift data warehouse with scalable models via dbt data pipelines.
- Integrated CRM, product, marketing data from Segment, GA4 and HubSpot into unified reporting layers.

Zeotap GmbH Apr 2020 – Mar 2021
Senior Product Data Analyst — Germany, Europe

- Built Revenue Attribution model based on different data partners, segments, & criteria fitment via Python (Jupyter Notebook) for large datasets using Pandas, NumPy, Matplotlib, Seaborn, Scikit, etc.
- Collaborated with the data engineering team to troubleshoot and resolve ETL pipeline issues, ensuring data integrity and reliable data flow for analytics and product use cases.
- Supported pipeline optimization efforts by identifying data inconsistencies, validating transformations, and improving overall data quality across the platform.
- Built self-serve dashboards in Redash and Quicksight for business operations & growth teams.

Bounce - The Bolt EU of India Jun 2019 – Apr 2020
Lead Data Analyst — India

- Analysed P&L reports at various levels, observed trends, and developed live KPI metrics, reporting to CXOs, SVPs, data engineers, product managers, & teams.
- Built fraud detection models saving $120K/month by implementing geo-based risk area heatmaps using Python with H3 and GeoHash.
- Delivered campaign insights, improving marketing performance through A/B testing, cohort analysis on retention, and RFM modelling for customer segmentation.
- Led a 6+ member team and performed large-scale end-to-end analysis using Python, NumPy, Pandas, Scikit, Matplotlib, etc., and deep-dived into operational insights to reduce asset losses and enhance asset safety.

NestAway May 2016 – Feb 2019
Founding Team - Lead Analyst — India

- Enabled CXO reporting through Metabase/Looker Studio dashboards tracking 100+ KPIs, including growth, revenue, bookings, and user behavior with WoW/MoM/YoY insights.
- Furnished data insights, growth reports, and predictive analysis for product, growth, sales, operations, marketing, & finance, and helped raise $90M+ in multiple rounds through accurate investor reporting.
- Built lead, opportunity, house contract pipelines from Salesforce CRM, and automated using Python for close-to-real-time changes, fixing bad houses using data points to enhance tenants' experience.

SKILLS, TOOLS & PLATFORMS

Languages: SQL, Python, JavaScript, LookML
Databases: PostgreSQL, MySQL, Redshift, Snowflake, SQL Server, MongoDB, ClickHouse, etc.
Data Engineering: dbt, ETL/ELT, Data Warehousing, Data Modelling, E-R Diagrams
BI Tools: Tableau, Power BI, Looker, Omni, Metabase, Klipfolio, QuickSight, Redash, Domo, etc.
Analytics: A/B Testing, Attribution, Funnel Analysis, Forecasting, Generative AI for Data
Datawarehouse: AWS (S3, Redshift), GCP (BigQuery), Microsoft Azure, Azure Data Factory
Data Connectors: Fivetran, Stitch, Hevo Data, Supermetrics, Funnel.io, Estuary, Skyvia, Zapier
PM Tools & Repositories: JIRA, Confluence, Miro, Notion, Asana, Trello, ClickUp, Jupyter Notebook, GitHub, GitLab, Bitbucket

CERTIFICATIONS

- BCG certified Data & Digital Platforms Professional
- Cisco Data Analytics Essentials
- AWS Certified Data Analytics – Specialty
- IELTS - English Proficiency Exam
- HackerRank 5 Star SQL & Tableau Certified
- Google Analytics Individual Qualification Certified

PAST CLIENTS

Airbnb, Alior Bank, Apple, AT&T, BCG, Coke, GreyOrange, H&M, Insly, Lyft, Maybank, McDonald's, Ogilvy, P&G, Pepsi, Quest Diagnostics

EDUCATION

- B.Tech in Electronics Engineering from Uttar Pradesh Technical University, Lucknow, India
- Senior High School from Central Board of Secondary Education, New Delhi, India
